

Bright School Celebrates International Dot Day

Artist Name:

Grade:

Teacher:

Finish the picture. What can the dot become? A face, a scoop of ice cream, an alien, a soccer ball, it can be anything you imagine. Be as creative as you can! Don't forget to fill the background with details that make your picture stand out and give your drawings a sense of place. I am excited to see what you come up with. You can add color, shading or even collage elements to turn your idea into a reality. You can also rotate the page to be any direction that works best for your idea. Don't forget to decorate the frame to fit your drawing. Please return the finished drawings to the office by Thursday, September 30th. Below are some examples of drawings made using the worksheet above. Feel free to color, paint, or shade in your artworks.
